Card counting is a casino card game strategy used primarily in the blackjack family of casino games to determine whether the next hand is likely to give a probable advantage to the player or to the dealer. Card counters are a class of advantage players, who attempt to reverse the inherent casino house edge by keeping a running tally of all high and low valued cards seen by the player.

The goal is to beat the dealer and also not bust with a 22 or more. Here are their values: Number cards: The ... Start winning. In order to win, the player has to be closer to 21 than the dealer, without going over. If the player goes over, he has "busted." If it's a tie, it's a "push" -- neither the player nor the house wins. A blackjack is when your starting hand is an ace and 10, or face ...
